**About Greater Hartford Legal Aid:**

GHLA was incorporated in 1958 with a mission *to achieve equal justice for poor people, to work with clients to promote social justice, and to address the effects and root causes of poverty.* We are a diverse and experienced group of lawyers, advocates and support staff who work to help our clients meet their basic human needs for safety, housing, education and employment opportunities, health care, food, and basic support. Because centuries of structural racism and sexism have caused people of color and women to be disproportionately living in poverty, we focus on priorities and strategies to advance race and gender equity. We are skilled negotiators, litigators and policy advocacy leaders who are community-informed and focused on our mission. We use a combination of individual representation, impact litigation, policy advocacy and community legal education to improve the lives of poor people and to increase access to justice.
